## *INFORMATION TECHNOLOGY EXPENDITURES REPORT*

*For the Period  
Ended  
December 31,  
2001*

North Carolina Office of the State Controller

Robert L. Powell, State Controller

---

**State of North Carolina**  
**Office of the State Controller**  
**Information Technology Expenditures Report**  
**For the Period July 2001 – December 2001**

---

## **Introduction**

The purpose of this report is to provide total information technology (IT) expenditures within the State as required by Senate Bill 222 (SB222) and House Bill 168 (HB168) ratified during the 1999 session of the General Assembly. Each bill provides a definition of information technology:

---

HB168	All expenses directly related to data processing and telecommunications, including expenses incurred for permanent, state-funded technical positions
SB222	(G. S. 143B-472.40A) Electronic data processing goods and services and telecommunications goods and services, microprocessors, software, information processing, office systems, any services related to the foregoing, and consulting or other services for design or redesign of information technology supporting business processes

---

SB 222 places an additional emphasis on reporting by specific IT projects. Both bills exempt the General Assembly from being reported and SB222 exempts the UNC System agencies. However, UNC System agencies are included in this report to satisfy HB168 requirements.

The basis for this report is the statewide chart of accounts and the personnel classification system. The primary sources of this data are the North Carolina Accounting System (NCAS) and the Personnel Management Information System (PMIS). This report covers the time period of July 2001 through December 2001 and includes all funding sources. At the time this report was generated, all agencies had closed the December accounting period.

## **Summary of IT Expenditures**

Table 1-1 Information Technology Expenditures Summary lists by agency the total IT expenditures grouped into major cost categories. The amounts listed are total costs, without regard to the funding source. As a primary IT services vendor for most agencies, the Office of Information Technology Services is shown separately and is not included in the report totals.

Under the NCAS chart of accounts, most information technology operational costs are identified through specific account codes. The primary exception is personnel related costs that are recorded within NCAS in aggregate without regard to the type of work performed by the position. These costs include salary, fringe benefits, and employee training expenses.

To estimate salary and fringe benefit costs associated to information technology positions, this report utilizes the class code structure within PMIS. The budgeted salary

**State of North Carolina**

**Information Technology Expenditures Report**  
**For the Period July 2001 – December 2001**

---

for all permanent positions assigned an information technology specific class code is used to estimate each agency's personal services obligation for this fiscal year.

The budgeted salary amounts from PMIS are annualized and include both vacant and filled positions. Within this table, the annualized amount is adjusted for the reporting period using a straight-line methodology.

Employee training costs for IT personnel can not be estimated using NCAS or PMIS. The other IT costs are summarized into the following categories:

Category	Description
IT Related Contracted Personal Services	Amounts paid to professional and personal service contractors to provide IT services, including IT system design, programming support, and data entry.
Software	Includes both Software Maintenance and Software Purchases/Development.
Hardware	Includes costs for the purchase, lease, rent, repair and maintenance of data processing and telecommunication equipment.
Data Processing Supplies	Purchases of data processing specific supplies such as tape labels, printer paper, special forms, etc.
Telecommunications and Networking Services	Amounts paid for telephone and data communications services and cable installations from ITS as well as other outside vendors.
Mainframe Services	Expenses for data processing charges for mainframe or UNIX services paid to ITS or an outside vendor.

Department of Transportation (DOT) posts some of their work order based costs in aggregate as deferred charges or other assets within NCAS. To obtain a more complete picture of IT costs, non-personnel related costs for the Department of Transportation are from the DOT financial system.

Note 1: PMIS **budgeted** salary amounts (adjusted for the reporting period) plus calculated fringe benefit cost amounts are used to represent total salary cost, which means that the cost is overstated by the amount of lapsed salaries generated by vacant IT positions. This overstatement could be as much as \$ 15.6 million.

**State of North Carolina**  
**Office of the State Controller**  
**Information Technology Expenditures Report**  
**For the Period July 2001 – December 2001**

---

**Expenditure Summary by Budget Code Type**

While Table 1-1 shows all IT expenditures for the first 6 months of Fiscal Year 2002, a further analysis can be performed. The expenditures in Table 1-1 (excluding the Office of Information Technology Services) can be broken down by budget code as follows:

	<b>IT Expenditures</b>	<b>Percentage of Total</b>
General Fund Budget Codes	\$194,500,201	60.10%
All Other Budget Codes	\$129,132,403	39.90%
<b>Total of all Budget Codes</b>	<b>\$323,632,604</b>	<b>100.00%</b>

Based on budget codes, 60.10% of the IT expenditures listed in Table 1-1 were incurred in General Fund Budget Codes. All other Budget Codes total 39.90% of all IT expenditures. All of the Office of Information Technology Services expenditures are in non-General Fund Budget Codes. Greater detail on these numbers is contained in the following schedules:

- Table 1-2 Information Technology Expenditures Summary for General Fund Budget Codes contains IT expenditures, by agency for all Budget Codes contained in the General Fund.
- Table 1-3 Information Technology Expenditures Summary for All Other Budget Codes contains IT expenditures, by agency for all Non-General Fund Budget Codes.

**Table 1-2 Information Technology Expenditures Summary for General Fund Budget Codes**

Note: The Office of the State Treasurer has an internal Computer Center which bills the other General Fund departments within the Office of the State Treasurer for services. The negative amount in mainframe services is due to an adjustment made to ensure Budget code 73410 Computer Center is not double counted. The expenditures are shown in the General Fund Budget Codes.

---

**Summary of IT Expenditures - UNC System Agencies**

Table 1-4 Information Technology Expenditures - UNC System Agencies lists by university the total IT expenditures grouped into major cost categories. Costs are segregated into the same categories as used in Table 1-1.

Personnel costs are estimated using PMIS data; however, UNC System agencies operating their own payroll systems are not required to enter EPA position information into PMIS. UNC General Administration has provided EPA position summary data which has been included in this report.

**Software/Hardware Category Drilldown**

Table 2-1 Software and Hardware Category Analysis lists by agency the types of expenditures within the Software and Hardware categories. Table 2-2 Software and Hardware Category Analysis -UNC System Agencies lists this information by university.

The types of costs included within each category are listed below:

Category	Description
Software	<p>Includes both Software Maintenance and Software Purchases/Development.</p> <p><u>Software Maintenance</u>: Contract expenses paid for the Software Maintenance Agreements (SMAs).</p> <p><u>Software Purchases/Development</u>: Purchase of software from vendors such as Microsoft, IBM, etc. and includes amounts paid for custom developed software from outside vendors.</p>
Hardware	<p>Includes costs for the purchase, lease, rent, repair and maintenance of data processing and telecommunication equipment.</p> <p><u>DP Equipment Repairs/Maintenance</u>: Expenses paid for the maintenance and repair of data processing equipment.</p> <p><u>DP Equipment Rent/Leases</u>: Expenses paid to lease or rent data processing hardware such as PCs, mainframes, and computer peripherals.</p> <p><u>DP Equipment Purchases</u>: Expenses paid to purchase data processing hardware such as PCs, mainframes, and computer peripherals.</p> <p><u>Telecommunication Equipment Rent/Leases</u>: Expenses paid to lease or rent telecommunications hardware such as telephones, switching equipment, etc.</p> <p><u>Telecommunications Equipment Purchases</u>: Expenses paid to purchase telecommunications hardware such as telephones, switching equipment, etc.</p>

---

**Budget to Actual Comparison**

Table 3-1 Budget to Actual Comparison provides an indication of budget utilization for IT expenditures as of end of the report period. A 50 % utilization rate indicates that the agency would spend 100% of their budget by fiscal year end.

The total budget estimate is calculated using PMIS budgeted salary information and, for all other cost categories, the authorized budget amounts as posted within NCAS. Agency budgets are controlled at the certification level which is a more summarized level than the NCAS accounts within some IT expenditure categories. The State Budget Manual allows agencies flexibility to maintain their budgets at a different level than they post expenditures, and many agencies take advantage of this flexibility.

This table does not include the UNC System agencies or the Department of Transportation. Department of Transportation does not provide budgetary data from their financial system at this time. UNC System agencies are allowed to post budgets at a highly summarized level; therefore, none of the budget can be identified within NCAS as related to IT cost categories.

For the remaining agencies, the overall budget utilization percentage is 47.04% which is lower than the expected rate of 50%. This indicates that agencies slowed spending to better respond to the state cash flow crisis. Only one agency had a budget utilization rate in excess of 70%. The Department of Juvenile Justice and Delinquency Prevention has IT expenditures in a non-general fund budget code that are supported by receipts or fund balances, and has not adjusted its budget to account for these revenue sources.

---

**UNC System Agencies - Current vs. Prior Year**

In lieu of a budget to actual comparison, Table 3-2 Current versus Prior Year Expenditures indicates the rate of expenditure for UNC System agencies. A 50% rate indicates the university spent the same amount for IT expenditures as in the previous year.

The previous year total amount is adjusted to include amounts posted to the NCAS account, Communication Cable Contracts which was added to the Telecommunications and Networking Services cost category this year.

**Salary and Fringe Benefit Calculations**

Table 4-1 Salary and Calculated Fringes for All IT Positions (Non-UNC System Agencies) lists by agency the total FTEs for permanent, full-time and part-time IT positions and the current annual budgeted salary amount for these positions as of the end of the report period. Data for these tables come from PMIS and include both vacant and filled IT positions. A position is identified as IT related based on the position's PMIS class code.

Table 4-2 Salary and Calculated Fringes for All IT Positions (UNC System Agencies) lists the same information described above but for universities. UNC System agencies operating their own payroll systems are not required to enter EPA position information into PMIS, however this data has been provided and is incorporated into this report.

Fringe benefit amounts are not maintained within PMIS and are calculated in these tables based on the following criteria:

- OASDI – 6.2% of budgeted salary amount capped at \$84,900 per FTE
- HI – 1.45% of budgeted salary amount
- Retirement – 5.00% of budgeted salary amount
- Hospitalization -- \$2900.04 per FTE

Other fringe benefit costs such as longevity or overtime pay can not be readily estimated and are not included.

This report assumes that salary and fringe benefits calculated in Table 4-1 and Table 4-2 are paid evenly through out the year. Fifty percent (50%) of these totals are used to estimate personnel expenditures in Table 1-1 and Table 1-2.

## Table 4-1 Salary and Calculated Fringes for All IT Positions

Annual Budgeted Salary as reported December 31, 2001

Office of the State Controller  
Information Technology Expenditures Report  
For the Period July 2001 – December 2001**

---

**Salary Cost by Position Status**

Table 5-1 Total IT Salary and Fringe Amount by Position Status (non-UNC System agencies) segregates the current annual budgeted salary and fringes amount by position status within an agency. The position status determines whether a position is filled or vacant at the end of the report period (December 31, 2001). With approval, salary reserve generated by a vacant position can be re-budgeted to another category.

Table 5-2 Total IT Salary and Fringe Amount by Position Status (UNC System agencies) lists this same information by university.

**Table 5-1 Total IT Salary and Fringe Amount By Position Status**  
**Annual Budgeted Amounts as reported December 31, 2001**  
**Non-UNC System Agencies**

**Salary Costs by Pay Grade**

Table 7-1 Salary and Calculated Fringes by Pay Grade (non-UNC System agencies) lists the salary and fringe benefit costs FTEs for IT positions segregated into broad pay grade ranges. These pay grade ranges have the following minimum and maximum salaries:

	<b>Grade 50-59</b>	<b>Grade 60-69</b>	<b>Grade 70-79</b>	<b>Grade 80-89</b>
Minimum	\$ 17,067	\$ 20,752	\$ 31,315	\$ 48,812
Maximum	\$ 30,214	\$ 46,964	\$ 74,458	\$119,481

All positions with a pay grade outside of these ranges are listed in the Other Grades column. This column also includes positions classified as vacant, flat rate or non-graded, which includes banded positions. Administrative Office of the Courts has its own pay grade schedule and all of its positions are listed in the Other Grades column.

Table 7-2 Salary and Calculated Fringes by Pay Grade (UNC System agencies) displays this same information by university.

**Table 7-1 Salary and Calculated Fringes by Pay Grade for All IT Positions**

**Project Based Expenditures**

To further comply with SB222 requirements, OSC implemented the project accounting functionality within NCAS to capture specific costs by IT project/system. The need for capturing project specific costs is established by G. S. 143B-472.64 Financial Reporting and Accountability for IT Investments and Expenditures. UNC System agencies and the General Assembly are exempt by statute from this requirement. Projects subject to this additional reporting are selected based on criteria established in a joint effort by the State Controller, State Budget Officer, and Chief Information Officer. The criteria includes:

- An application development project with a budget estimate of \$2 million or more that is submitted to the Information Resource Management Commission (IRMC). This includes all projects on the IRMC Statewide Projects List at July 1, 1999 as well as any new projects coming before the IRMC for certification since that date.
- An application existing prior to fiscal year 2000 that was determined to be “mission critical” by the agency or by the State Auditor for inclusion in the Y2K audit review process.

Based on these criteria, 155 significant projects/systems have been identified to date. These projects are set up in NCAS for agencies to record costs.

Table 8-1 Information Technology Expenditures by Significant Project lists IT expenditures by agency and project grouped into major cost categories.

Category	Description
Salary Plus Fringes	Salary and wage payments to full-time and part-time employees and the associated fringe benefit costs.
IT Related Contracted Personal Services	Amounts paid to professional and personal service contractors to provide IT services, including IT system design, programming support, and data entry.
Software	Includes both Software Maintenance and Software Purchases/Development.
Hardware	Includes costs for the purchase, lease, rent, repair and maintenance of data processing and telecommunication equipment.
Data Processing Supplies	Purchases of data processing specific supplies such as tape labels, printer paper, special forms, etc.
Telecommunications and Networking Services	Amounts paid for telephone and data communications services and cable installations from ITS as well as other outside vendors.

**State of North Carolina  
Office of the State Controller  
Information Technology Expenditures Report  
For the Period July 2001 – December 2001**

---

Mainframe Services	Expenses for data processing charges for mainframe or UNIX services paid to ITS or an outside vendor.
Training	Expenses for employee education, training, and registration fees including associated travel costs.
Other Expenses	All other expense amounts which includes costs for office supplies, building rent, furniture and equipment, postage, and state aid

---

Overall approximately 40% of the total IT expenditures from Table 1-1 are identified to a specific project/system in Table 8-1. Reasons for this difference include:

- Some expenses are for overall technology enhancements and maintenance at the agency and are not associated to a specific new development project.
- New development projects budgeted at less than \$2 million are not required to be reported separately.
- Once an IT project/system is fully implemented and incorporated into the ongoing operations of an agency, some costs such as personnel costs and supplies are difficult to allocate without a formal costing process.

**Table 8-1 Information Technology Expenditures by Significant Project****For the period ending December 31, 2001**
